## ABOUT ME

As a web developer student, I have a strong passion for creating dynamic and visually appealing websites. I am currently pursuing my training in web development with Umuzi and constantly seeking opportunities to enhance my skills with a solid foundation in programming languages such as Javascript, HTML, and CSS. In my training, I have worked on various projects such as building a simple website. I am currently looking for work experience in order to complete my NQF5 - System Development Qualification From Umuzi. Overall I am a dedicated and motivated web developer student, passionate about delivering high-quality websites that meet user expectations and business objectives.

## EMPLOYMENT

2022 - date **Web Development Learner**

Umuzi | Johannesburg

Web Development, Scrum and Agile Methodology. Participating in project conceptualization until the final deliverables, testing, ensuring the output's efficiency and flawless navigations. Managing the website content, configuring scripts, and managing scripting codes compatibility as well as reporting.

### **Additional learning outcomes:**

Build, and work with, the websites and applications that consumers engage with (the front-end) along with the servers and databases that speak to those website and applications (the back-end).

Understand all the moving parts in a development project, rapidly create a prototype to test an idea. Reduce project costs, simplify and streamline team communication.
